

ADDING PHOTOS AND VIDEO TO IPHONE MESSAGES

1. Open the Messenger app.
2. Click the pencil icon on the top right to start a new message.
3. After entering the recipient, click on the camera-shaped button on the left side.
 - a. If you have already taken the picture/video you want to send, scroll through the list of pictures and click on the one you want. Or, click “Photo Library” near the bottom. Check the photos you want to send and select “Send Photo.”
 - b. If you have not taken the picture/video yet, click the “Take Photo or Video.” You are then brought to the camera interface and prompted to take a picture/video. When you finish, the picture/video you made will automatically appear.
4. Once you finish attaching the photo/video to your texting screen, press the “Send” button.
